

### EYEBROW PENCIL

Formulated with soothing jojoba oil and anti-radical vitamin E, free from fragrance, carmine and chrome. It redefines the eyebrow by correcting the shape, volume and colour. The look appears more intense, the face gains in structure. 4 shades.

### WATERPROOF EYEBROW LINER

High-tolerance Waterproof Eyebrow Liner for sensitive or allergy-prone eyes. Formula enriched in Silicium, preservative-free, waterproof with excellent hold in all conditions. Adds colour and redefines sparse eyebrows. High-accuracy brush to discipline eyebrows with a natural effect. Bold, feather-like, refined but tamed brows are now the new trend. 3 shades.

### BROW ENHANCING MASCARA

Brow Enhancing Mascara tames unruly eyebrows, adding structure for an ultimate look. Very easy to apply, this product is ideal even for beginners, thanks to its optimised brush for extremely precise application.

This innovative, high-tolerance formula is enriched in Silicium to strengthen and intensify the eyebrows but is also gentle on sensitive or allergic skin and eyes. 3 shades.

# HOW TO MAKE UP YOUR EYEBROWS

All you need to know for perfect eyebrows

### 3 reference points to draw eyebrows and give them a natural shape

#### Reference point 1: Determine where the eyebrows should begin

Trace an imaginary vertical line from the flare of the nostril to the interior corner of the eye.

#### Reference point 2: Determine where the eyebrows should end

Trace an imaginary line from the flare of the nostril to the exterior corner of the eye.

#### Reference point 3: Determine the highest point of the eyebrow

To do so, trace an imaginary line from the flare of the nostril to the outer edge of the pupil.

#### Before making up your eyebrows:

- Dress them from the interior to the exterior by using a round mascara brush.
- If necessary, pluck the lower edges using tweezers.

### Enhance your eyebrows according to the desired result

#### To groom and make up thick eyebrows:

A brow enhancing mascara is the ideal product. It is very simple to use in order to groom the eyebrows for a natural effect without clumping.

**How to apply ?** Choose the colour of your eyelashes or a more intense shade according to the desired effect. Then apply from the internal corner toward the external corner of the eyebrow using sweeping upward movements for a very natural effect.

#### To fill sparse eyebrows or reshape them:

An eyebrow pencil makes it possible to bring texture to sparse eyebrows and reshape them.

**How to apply ?** After brushing your eyebrows, reshape them and fill any sparse areas, holding the pencil in a vertical position. Draw small lines upward with the pencil, respecting the three reference points mentioned. Finish by brushing the eyebrows one last time to blend the colour and obtain a very natural result.

#### For very sophisticated eyebrows:

You may obtain a very sophisticated result or an evening look by combining the two methods explained above.

**How to apply ?** Begin by shaping the brow line with an eyebrow pencil, then grooming the brows and fix the makeup using a brow enhancing mascara. Choose the shade of your eyebrows or slightly darker, but be aware that a too dark shade will harden the look.
